The International World Urbanisms Seminar is situated at a crossroads between academia and practice, research and design, critique and project. It is organized by the post-graduate Master of Human Settlements and Urbanism and Strategic Planning at the Department of Architecture, KU Leuven. The seminar will focus on the present design and research of MaHS-MaUSP and MIRA, and include the PhD and post-doc research of OSA (research group of urbanism and architecture). Guest lectures by renowned practitioners and experts as well as alumni practices will feed discussions on the evolving relationship of landscape and urbanism.
